

Red Folder

Faculty and Staff Guide: Assisting Students of Concern

The Red Folder serves as a quick reference guide to mental health resources for faculty/staff and graduate teaching/research assistants who may interact with distressing or distressed students. The folder identifies common signs of student distress and directs faculty/staff and graduate teaching/research assistants through campus protocol to clarify who they should contact in the event of an emergency. The folders also provide tips for how to approach a student who may be in distress and connect that student with the appropriate resource.

To ensure that these resources are accurate and up to date, the Red Folder is no longer printed. For access, please scan the QR code below or visit redfolder.ucdavis.edu.
